GURUGRAM, HARYANA | +91 7417107647

kaustubhjaiswal@hotmail.com | [LinkedIn](#)

Full Stack Developer with 8+ years of experience in building scalable enterprise applications using .NET, Angular, and Azure. Proven track record in performance optimization, architecture design, and working with cross-functional teams in Agile environments. Passionate about learning and implementing new technologies.

PROFESSIONAL SUMMARY

- Experience as Software Developer in software design, analysis, development, testing and implementation of web and server applications using frontend & backend technologies.
- Hands on in application development in **.NET** using **C#** as the code-behind language and **Entity Framework** and **LINQ** as the Database data consumer.
- Extensive experience in design and development of applications using .NET and Web technologies & Frameworks like **Angular**, **TypeScript** in n-tier architecture.
- Participated in various process steps within the software development life cycle & work experience in **Agile** development process.
- Assisted with the development, documentation and maintenance of architectures, requirements, algorithms, interfaces and designs for software systems.
- Work Experience in developing **Microservices** Architecture and Modern Monolithic Architecture.
- Experience in implementing solutions using **cloud technologies** like **Azure's App Insight** etc.
- Work with the Senior Director of Product Development and Lead Sr. Software Engineer to understand and implement functionality for new solutions.
- Ability to learn & develop using new technologies quickly.

WORK EXPERIENCE

Technical Analyst

AdvantageGo (Coforge, SAPIENS(June 2025))

Gurugram, India

(March 2019 - Present)

- Lead development of critical modules and services for the Underwriting Workbench project.
- Collaborated with cross-functional teams to design and implement innovative solutions.
- Provided mentorship and technical guidance to junior team members.
- Designed and implemented high-level and low-level architecture for multiple modules, ensuring scalability, maintainability, and performance optimization.
- Worked extensively on performance enhancements, optimizing database queries, Web API response times, and overall system efficiency.
- Worked multiple modules from scratch to design and implement solution using .NET, Angular & SQL as major technologies.

Software Engineer

AdvantageGo (Coforge)

(December 2017 – March 2019)

Gurugram, India

- Contributed to design and development of core functionalities for the EXACT 5.0 + {Advantage Suit} Workbench project
- Worked in product based organisation (*subsidiary of coforge*) on insurance domain product from scratch.
- Delivered quick turnaround on client requirements as part of the sales demo team.
- Received recognition for outstanding contributions, including the "**Pat on the Back**", "**Technovator**" Award for exceptional performance during a quarters.
- Implemented modules and services following Agile methodologies.
- Took end-to-end responsibilities of whole modules from inception to deployment, ensuring seamless integration with existing systems and meeting project deadlines.
- Worked on the project from it's initial phase of development and planning.

TECHNICAL SKILLS

Technologies	C#, TypeScript, SQL.
Frameworks	.NET, Angular.
Database	MS SQL Server.
Development Environments	Visual Studio, Visual Studio Code
Cloud Services	Microsoft Azure (App Insight)

EDUCATION

BACHELOR'S IN TECHNOLOGY

Computer Science - 2017

GHAZIABAD, INDIA

DECLARATION

I hereby declare that all the information furnished above is true to the best of my knowledge.
